Continuation of 3. NOTE: In base claims 1,8 and 15, the newly added limitation of error information including "two or more of a location where the error occurred, a type of error detected, a program address where the error occurred, contents of the file being processed when the error occurred, sequence of events that led up to the error, type of file being processed when the error occurred, size of the file being processed when the error occurred, and a stack trace," raises new issues.
